

Peter Lewis C.Eng. MIET IEEE

Chartered Engineer

Personal profile

Experience Summary

Peter specialises in technology transfer, compliance and problem solving using innovative methods. With a proven track record in management, he was formerly Head of EMC at the University of Salford, brought European Competent Body status to the University from the Department of Trade and Industry, and was key instigator for the UK's National EMC awareness campaign. He has worked for many blue chip companies including AstraZenica, Guinness, British Nuclear Fuels Limited and Balfour Beatty. He is a Chartered Engineer and physicist and a member of IET and IEEE. Peter holds degrees in Applied and Computational Physics, is a European expert and international speaker and trainer on innovation and compliance.

PROFESSIONAL QUALIFICATIONS

- 2005 Member of the Institute of Electrical and Electronic Engineers (MIEEE), USA
- 1991 European Engineer (Eur Ing), Group 1, FEANI, Paris
- 1990 Chartered Engineer (C. Eng.), the Engineering Council, London
- 1978 Member of the Institution of Engineering Technology (MIET), London

ACADEMIC QUALIFICATIONS

- 1990 MSc, Computational Physics, University of Salford
- 1975 BSc (Hons), Applied Physics, University of Hull
- 1975 Diploma in Applied Physics, Distinction, University of Hull
